

# Guaranteed Irish Sustainable Leaders Programme 2026

## Turning Sustainability into a Supply Chain Advantage

The **Guaranteed Irish Sustainable Leaders Programme**, delivered in partnership with sustainability platform ENSO, is now entering its second year.

The programme supports participants with practical learning, expert guidance and actionable tools to build a tailored sustainability roadmap, articulate their sustainability approach to customers, suppliers and investors, track progress through key metrics and collaborate with peers – embedding sustainability as a strategic advantage throughout their supply chains.

'We recommend the programme to any Guaranteed Irish members looking to drive real practical change.'

The collaborative environment, the expert guidance and focus on tangible outcomes makes it invaluable and the value of investments extra businesses.'

Christopher Carroll  
Head of Strategy and Finance, VBT IT Solutions

As an SDG Champion for 2026-2027, Guaranteed Irish brings a government-recognised, partnership-led approach to sustainability. Sustainability is central to our mission to foster positive change within communities, promoting practices aligned with global standards while staying true to our values of supporting quality jobs and strong local economies.

## Programme Details

**Start Date:** 30th April 2026; 6 Months duration.

**Location:** Hybrid (Online/Dublin)

**Participants:** Up to 3 participants per company. Individuals responsible for delivering on sustainability and procurement regardless of prior ESG knowledge.

**ENSO Platform Access:** 6 months to track progress, carbon footprint and initiatives. Optional ENSO platform continuation and consultancy.

**Exclusive member rate:** €2,500 per company (valued at €5,000)

## Programme Objectives

**Trained & Empowered Team:** Provide sustainability literacy training to enhance knowledge, compliance and risk management to your team.

**Sustainability Roadmap and Statement:** Equip members with a sustainability roadmap and statement to support communication, tender applications, and access to new supply chains.

**ESG Data:** Introduce a platform for measuring and managing energy, water, carbon, and waste to reduce operating costs.

**Peer Network:** Create a professional peer network for collaboration, knowledge sharing, and best practices.

# Workshop Schedule & Topics

## ENSO Group Clinics: June and October

### In Partnership with ENSO

ENSO is on a mission to simplify sustainability for businesses and make it one of their key competitive advantages. Through their award-winning platform, ENSO works with businesses to create impactful sustainability strategies and help them transparently communicate their activities to customers, suppliers, employees and other key stakeholders. ENSO have developed training programmes to help fast track sustainable adaptation and development within businesses. ENSO has recently achieved B Corp certification.

## Your Programme Facilitators

### Clémence Jamet

is the Sustainability Lead at Guaranteed Irish. She holds a Master's in Business Administration from France and is a graduate of UCC's Sustainability in Enterprise programme. Clémence leads the sustainability initiatives at Guaranteed Irish, including the Guaranteed Irish Forest and Sustainability Roadmap, making sustainability practical and actionable for over 2,000 Irish businesses.

### Donal Quinn

is the Founder of ENSO. Donal's background is in marketing, branding, and managing sustainability initiatives. While working in the private sector he realised the knowledge gap between businesses and their understanding of sustainability, its benefits and how to effectively communicate it. He set about developing the ENSO platform - helping businesses create impactful strategies, take meaningful action and transparently communicate their activities.

### Erin Maher

is the Lead Sustainability Strategist and Adviser at ENSO. Erin holds a BSE in Climate Science and Impacts Engineering from the University of Michigan and a MSc in Development Practice from Trinity College Dublin. She is passionate about addressing the climate crisis in a just and equitable way, focusing on just transitions, accessibility and communication, and environmental justice.
